

# CHECKLISTE

FOR THE DELIVERY OF SMOKER CABINS WITH CRANE TRUCK

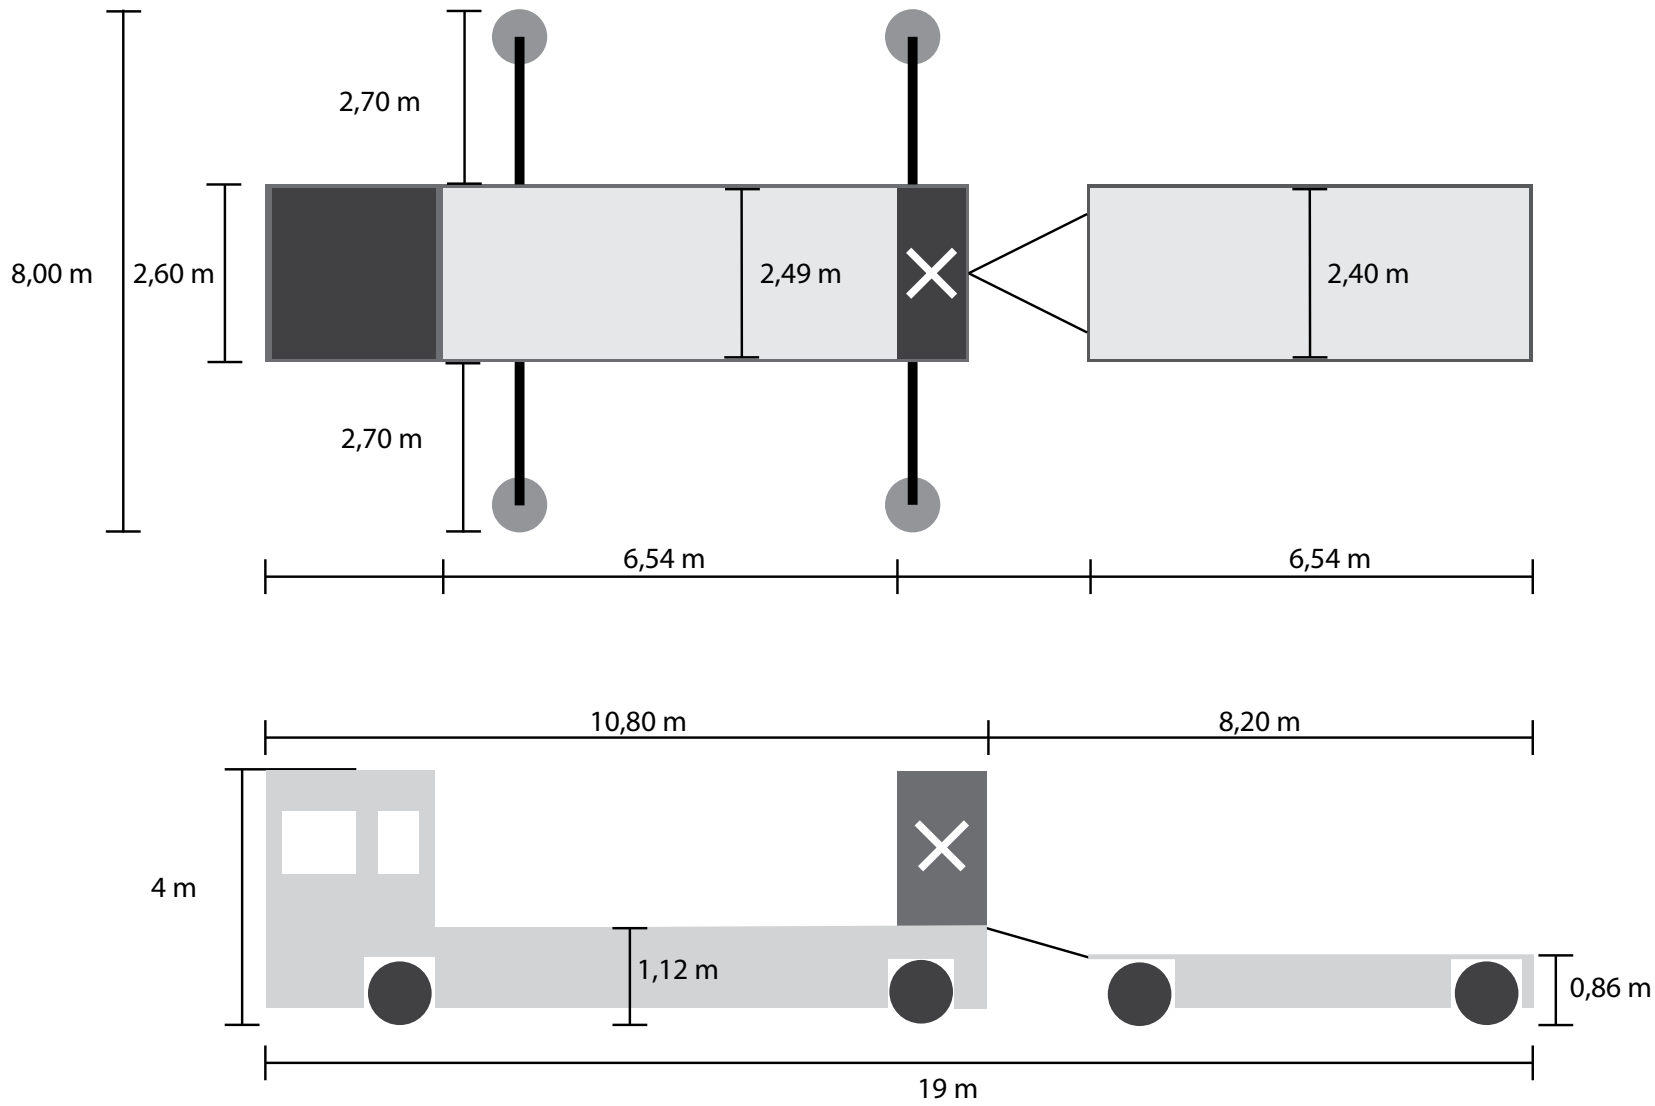

# CHECKLISTE

In order to guarantee a smooth delivery with our crane truck, the following points must be met:

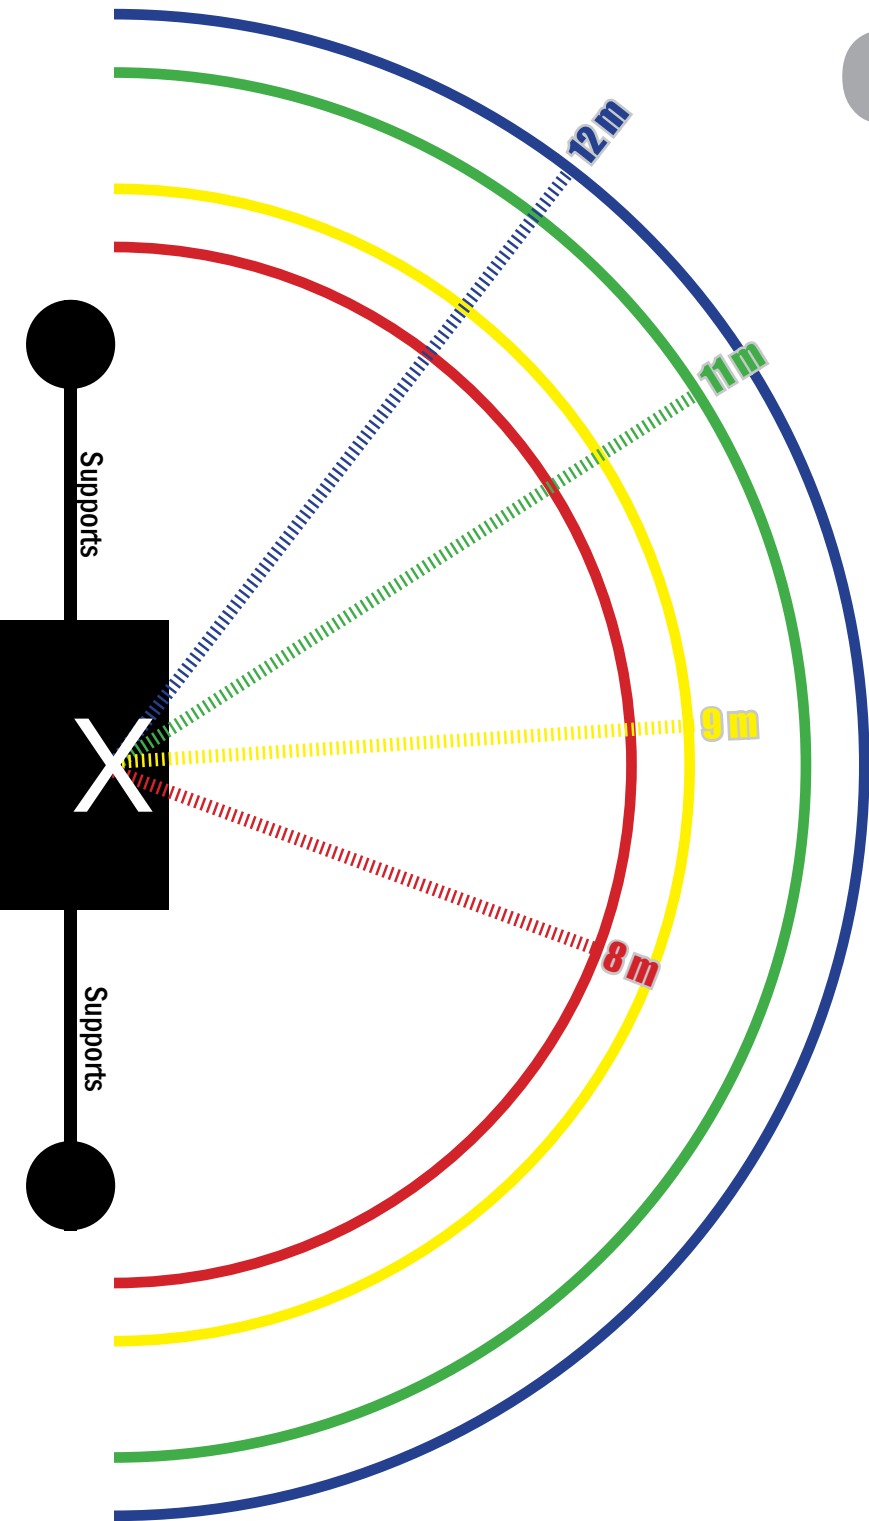

- The passage dimensions to the installation site are min. 3 x 4m (W x H)**
- Shunting possibility for a 3 x 19m (W x L) truck with trailer are given**
- The access road and the installation site is designed for a weight of 40t**
- For unloading the goods, the crane truck has at least a space of 8 x 11m (W x L) available.**
- There are no obstacles such as trees, bushes, lanterns, etc.**
- There are no special features such as underground parking, canopy, etc.**

If one of these points can not be fulfilled, we ask you for short feedback.

# truck dimensions

# CRANE RANGE

## Smoking cabin Economy

Truck crane reach 12m

## Smoking cabin R6

Truck crane reach 11m

## Smoking cabin R10

Truck crane reach 9m

## Foundation 4,40 x 2,40m
